Dear colleagues,

We're excited to share that over 1,000 abstracts have been submitted to EUROSOIL2025, with nearly 60% proposed as oral presentations. Submissions have come from 45 countries, reflecting the truly global engagement of our community. We sincerely thank all contributors for their excellent work and the confidence placed in this initiative.

This achievement marks a particularly intense and rewarding period for the organizing team — and especially for the EUROSOIL2025 Scientific Committee, composed of more than 80 highly qualified soil experts. Their dedication and tireless efforts over the past days have been key to completing a rigorous review process that will shape an outstanding scientific programme.

Notifications of review outcomes are now being sent to corresponding authors.

We look forward to welcoming you to an inspiring and impactful EUROSOIL2025!
